

on time. on budget. every time.

The Harmonious Centre SBS Roof

The building housing The Harmonious Centre located in Calgary's Chinatown was in need of a new roof. Eco Coatings and Exteriors/Sherger Construction was brought on to remove and replace the existing gravel roof that had out lived its service life.

SBS Torch On System

Eco Coatings/Sherger installed a new heat welded SBS system manufactured by IKO Industries. This highly rated industrial strength roofing system will provide lasting protection. This system is designed to withstand the rigors of long hours of UV exposure in the summer and dramatic freeze thaw cycles in the winter.

Commercial Roof Certified

Our team includes certified commercial roofing installers including SBS, EPDM, PVC, flat roofs, built up systems, torch on

Project Address

116 2 Avenue SW Calgary, AB T2P 0B9

Project Reference

"Eco Coatings & Exteriors presented a quote to install a new SBS roof on to our church. After deliberating the condo board agreed to accept the proposal and work commenced. The team was professional and did a great job. We happy with our decision, the quality of the workmanship and the peace of mind that comes with working with a trustworthy company. I would be happy to recommend Eco Coatings to anyone looking for a new roof on a commercial building."
