

on time. on budget. every time.

Martello Properties

140,000 sq ft Metal Roof

Martello Properties was facing a huge dilemma. They have a 140,000 sq ft metal roof that was leaking. They only option they could identify was an expensive roof replacement.

Then they discovered PSC and the SmartRoof System. They chose this option to seal and waterproof their 35 year old roof.

As a distributor for Western Canada, Sherger Construction oversaw the application of the SmartRoof System, a fibre reinforced, seamless acrylic elastomeric roofing system.

Once the application was complete, the roof stopped leaking at a fraction of the cost of a new roof and without disruption to building operations.

The PSC SmartRoof System delivers a long term waterproofing solution backed by a 10 year warranty.

Project Address

13226 Macleod Trail SE, Calgary AB T2J 7E5

Project Reference

Our clients trust our products because they work.

From the smallest roofs to the largest, Sherger Construction has implemented long term waterproofing solutions to some of Calgary's most iconic buildings.

We built our reputation by delivering projects on time and on budget, every time.

So whether you have a warehouse or a hotel, a sports arena or a commercial building, we have a solution that is right for you.

I guarantee it.
