The Study - Design Build TI

'The Study' a new business in Cochrane, Alberta was looking for a company to create their vision for their new Spin, Yoga and Barre studio. After locating the ideal space (3500 sq ft) it was time for the build out.

They turned to Sherger Construction to come up with the design and layout to bring their new space to life. We worked with Holland Design to create a environment that capitalized on the natural elements of the existing space and infused the refreshing and healing elements inherent in Yoga, Barre and Spin.

We had 90 days to complete a total commercial buildout including design, demolition, carpentry, lighting, electrical, plumbing, HVAC, millwork, paint and finish carpentry. We delivered on time and on budget allowing Brianna & Jordan to move forward with their dream.

Project Address

30 Griffin Industrial Point #13, Cochrane, AB T4C 0A2

Project Reference

As we faced the build out of our new business The Study, we choose Sherger Construction to help us as we were new to the construction world. We were grateful as we had a bumpy start that Sherger Construction stood by us the entire time.

Sherger Construction demonstrated their depth of knowledge and skills as they partnered with us to move forward through all the stages of construction.

Thanks to Sherger Construction we are open for business in a beautiful space and they helped our vision come true!
