

Mayor's Urban Design Awards

Calgary 2019 Winner

Housing Innovation

Rosedale Affordable Housing The City of Calgary

Sherger Construction was awarded the Design Build Manage/ LEED project with The City of Calgary. The scope of this project was to build 16 affordable homes in the community of Rosedale. To minimize disruption to the community, Sherger Construction chose to build these homes modularly. This innovative approach also shortened the project time from 1 year to 5 months and was therefore awarded the Housing Innovation Award for 2019.
